- locomotive
- Swipper js
- node.js
- Github
- ChatGPT
- payment gateway
- React

EDUCATION

BACHELOR OF TECHNOLOGY

RGPV University Bhopal | 2020 - 2024

12TH

Govt. H.S. SCHOOL ALAMPUR (M.P.) | 2019 - 2020

10TH

Govt. BOYS HIGH SECONDARY SCHOOL ALAMPUR (M.P.) | 2017 - 2018

PROJECTS

1. WYNK MUSIC CLONE

[Visit Git Hub](#)

Create a WYNK Music clone using Node.js for backend logic, Express for routing, EJS for templating, and Mongoose for MongoDB interaction, delivering a seamless music streaming platform.

2. EBOOK WEB APP

[Visit Git HUB](#)

Create an eBook web app using Node.js, Express, EJS for templating, and Mongoose for MongoDB interaction. Express handles routing, EJS for dynamic content, and Mongoose for database operations.

3. YOUTUBE PLAYER

[Visit Git HUB](#)

Create a YouTube clone using Node.js, Express, EJS for templating, and MongoDB with Mongoose for data storage. Implement features like user authentication, video uploads, likes, and comments for a full-fledged experience.
